

The SimaPro core

Core values of the SimaPro Global Partner Network

We believe in the power of collaboration, and we work together to preserve and restore the planet's resilience through sustainable practices and metrics.

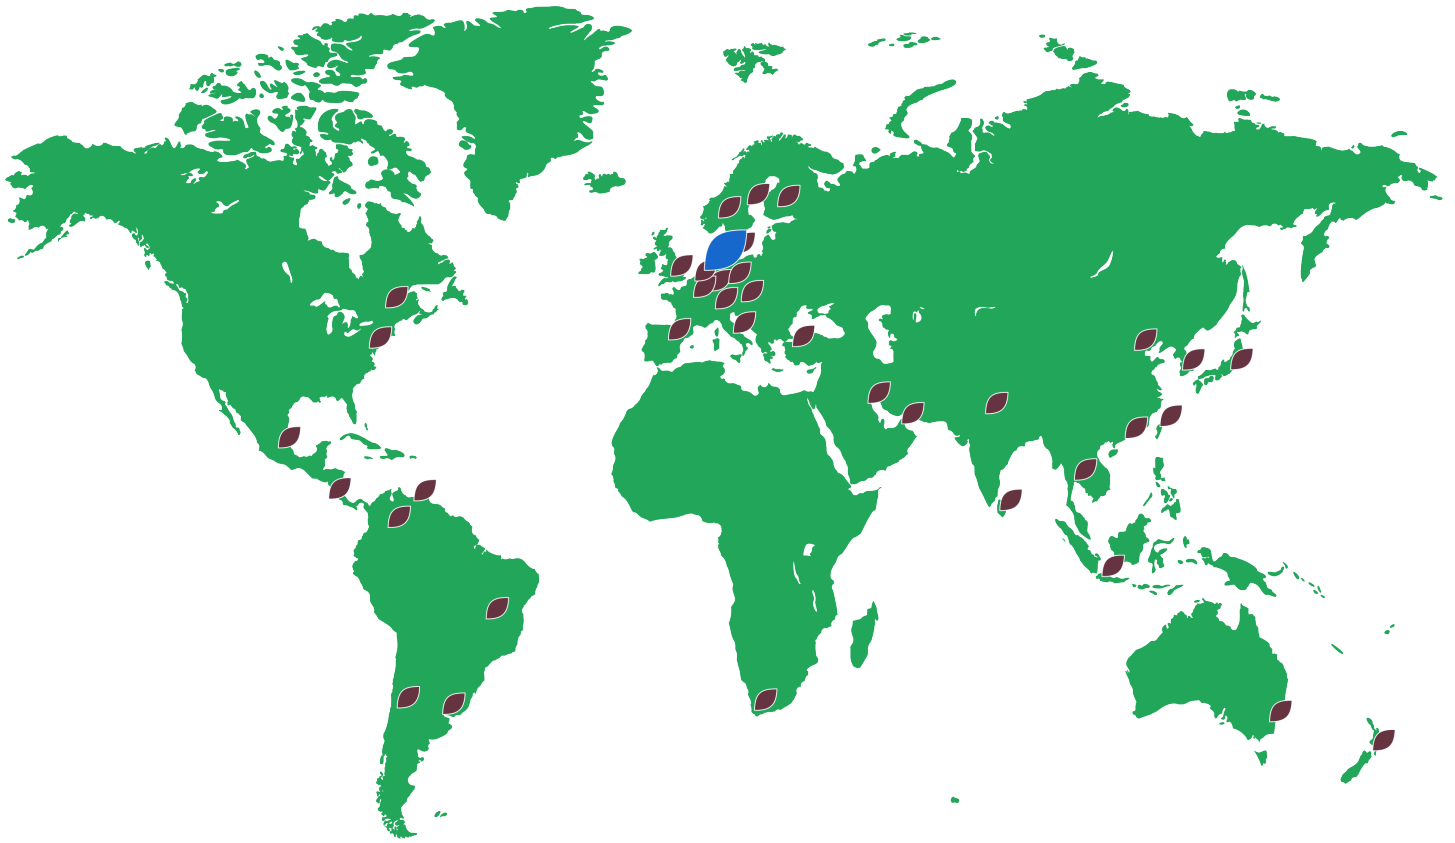

To make sustainability mainstream, metrics are the key. And life cycle assessment is the heart of sustainability metrics, providing the facts to foster positive change. Together, we co-create fact-based solutions that will help make this vision a reality.

The SimaPro Global Partner Network is a group of passionate life cycle assessment experts from over 25 countries. Our LCA-based practices and SimaPro solutions can play a pivotal role in creating a vibrant ecosystem that connects different worlds, systems, people and companies in support of a more sustainable future.

Transparency, Quality & Accuracy

Our commitments:

- ◊ We commit to transparency, quality and accuracy.
- ◊ We commit to science-based results. We won't engage in facts distortion.
- ◊ We will use our experience and knowledge to inform our customers and to facilitate sustainable development and practices.
- ◊ We will take every opportunity to maximize our positive impact.
- ◊ We will engage with everyone who wants to take responsibility for a transition towards a more sustainable future.

Recognition of commitment

All partners in the SimaPro Global Partner Network commit to the values and principles expressed in this document.
